

This menu was obtained *illegally* , behind closed doors, under the radar... and most importantly – **without** Mr. Krabs noticing .

Yes. Someone (we won't name names) snuck into Mr. Krabs' office late at night... past the money vault, through the patty vault, and finally reached **the forbidden scroll** : *The Secret Menu* .

These items are NOT on the regular menu. They're hidden for a reason. Some say they're too dangerous. Others say they're just too delicious.

⚠️ **WARNING:** Ordering from this menu may result in:

- Loud screams from Mr. Krabs
- Sudden disappearances of Squidward
- Or worse... extra charges 💰

So if you're brave enough, hungry enough, or just plain crazy enough... welcome to The Secret Menu
